SUMMARY

Front-End Developer and UX/UI Designer with over 4 years of experience specializing in Vue.js, Nuxt, Tailwind CSS, HTML, and JavaScript. Passionate about creating intuitive, visually appealing interfaces that enhance user experiences, I thrive in collaborative environments and am dedicated to developing products that genuinely improve users' lives.

EXPERIENCE

Front End Developer and UX/UI Designer
10/2023 - Present

Campaign Nucleus

- Organized and led weekly team meetings for frontend developers, boosting teamwork, and team unity, and resulting in a more collaborative environment.
- Conducted code reviews on a regular basis, enforcing standards and helping others learn optimal frontend techniques.
- Engaged in mentorship activities, actively seeking learning opportunities from peers, and enthusiastically embracing new challenges to foster personal and team growth.
- Demonstrated a deep commitment to visual design.
- Implemented accessible UX principles, ensuring seamless user experiences for diverse audiences and adhering to best practices.
- Applied strong understanding of UI/UX principles and an eye for design to revamp the website interface, resulting in a 40% increase in user satisfaction scores.
- Implemented StoryBook components, resulting in a more cohesive UI and enforcing standards in the front-end code base.
- Implemented E2E testing using Cypress, resulting in a more robust and tested front end.
- Collaborated on the development of design systems and platform projects, providing technical expertise and support to fellow engineers and valuable customers.
- Participated in team-wide efforts to translate code from Vue2 to Vue3, resulting in faster load times, reducing bug occurrences by 35%, and an enhanced, more maintainable code base.

Front End Developer and UX/UI Designer
09/2020 - 10/2023

BackIt / Veedback

- Designed, developed, and shipped multiple products from the ground-up using Vue.js, Nuxt, Figma, TailwindCSS, HTML, CSS, and Javascript.
- Collaborated across multiple teams to ensure features not only went out on-time, but features were robust and achieved on-target results.
- Implemented internationalization standards, improving overall user accessibility and accessible UX
- Applied strong understanding of UI/UX principles and an eye for design to revamp the website interface, resulting in a 40% increase in user satisfaction scores.
- Created reusable Vue components, reducing redundant code and accelerating new feature development by 40%.
- Developed and maintained user-facing features for websites and applications, boosting user retention rates by 35% through enhanced functionality.
- Developed multiple applications that utilized REST APIs.

EDUCATION

Computer Science   09/2018 - 05/2020
Western Oregon University - Bachelor of Science

Chemeketa Community College - Associate of Arts   09/2016 - 05/2018

SKILLS

Attention to Detail	Cypress
Creativity	GitHub
Empathy	Git
